To: Chan, Christina
Subject: Search request for application 10/789619

I have spoken to Barb O'Brien in STIC about the below search. I went directly to her since this search is complex and I needed to speak to the searcher. She needs you to email her directly to rush the search. This is a request to rush this search. Barb O'Brien and I have discussed the search strategy. Please rush.

I. If Applicant elects formula:

$(A)_n-(Th)_m-(B)_o-(FAFSD\ peptide)-X$

II. Applicant must elect a species for component A and number of repeats.

Elected species for A any amino acid, $n=0$.

III. Applicant must elect a species for component FAFSD peptide:

Elected species for FAFSD peptide is SEQ ID: NO:8.

IV. Applicant must elect a species for component B and number of repeats:

Elected a species for B is Gly-Gly, $o=2$

V. Applicant must elect a species for component Th and number of repeats:

Elected species for Th is SEQ ID NO:49 $m=1$.

VI. Applicant must elect a species for component X:

Elected species for X is α -COOH.
